

# Covid 19 Protocol for Lacerenza Funeral Home

Lacerenza's will have ample supplies of hand sanitizers, soaps and disposable towels on site for families and their guests. In addition, all public facing facilities- surfaces, counter tops, pens, moldings, doorknobs and the like, are wiped down and sanitized each day. We spray or wipe and leave the anti-bacterial solutions on these surfaces to maximize its effect.

While it is customary- even encouraged- to shake hands, embrace, even kiss each other while greeting at these affairs, Lacerenza's strongly encourages guests to minimize hand-to-hand and intimate contact while at its facilities and attending services. If you plan on coming to our facility for a service, please see following guidelines below...

- Masks are required to enter the building and must be worn at all times.
- 25 Guests are allowed in at once (not including immediate family members)
- Guests will wait outside until their turn enter. Doors will remain locked.
- Once guests leave others can enter at the discretion of staff members
- We ask that your stay is minimum. Please pay your respects and exit. Others will not be able to enter until people leave.
- No seating unless you are immediate family
- No gathering
- We DO NOT provide masks

*Failure to not cooperate can result in shutting down service.*

We are staffed accordingly to help and answer any questions that guests may have entering our facility.

Thank you for your cooperation and patience as we go through these changing times together.
